ADDITIONAL INFORMATION

- **Languages:** Hindi , English , Gujarati .
- **Certifications:** Web Development (Durvasa Infotech) .

PROFESSIONAL EXPERIENCE

FLOMIZE TECHNO LLP

01 May 2026 – Present

- **React.js / Next.js Developer**

Working on a multi-module SaaS Business Management Platform covering CRM, Accounting, Diamond Accounting, HRMS, Asset Management, and Task Management.

- Developed and enhanced business modules using Next.js, React.js, JavaScript, Tailwind CSS, and REST APIs.
- Worked on Deal, Lead, Sales, Purchase, Product & Inventory, Certified Products, Stock View, Reports, and Custom Print Settings.
- Developed Sales workflows including Sales Order, Sales Invoice, Estimate, Proforma Invoice, Sales Order Return, Credit Note, and Customer Payment.
- Developed Purchase workflows including Purchase Order, Purchase Bill, Purchase Return, Vendor Payment, and Broker Payment.
- Built Power BI-style customizable dashboards, graphs, and charts for business analytics and data visualization.
- Developed Asset Category, Asset Product, Asset Maintenance, Asset Assignment, Asset Linking, Lease, and Reservation modules.
- Implemented parent-child asset linking, allowing parent and child assets to be assigned together.
- Worked on CRM Lead and Deal Management modules.
- Developed HRMS features including Chat, Audio Call, Screen Sharing, and Task Management.
- Integrated APIs and developed dynamic forms, tables, filters, reports, reusable components, and data-driven workflows.
- Leveraged Claude AI for AI-assisted development, including code generation, feature implementation, debugging, refactoring, and optimization.
- Worked on UI improvements, bug fixing, performance optimization, and scalable frontend architecture.

GALAXY INFOTECH – SYSPRO ERP

Jan 2025 – Mar 2026

- **React.js & React Native Developer**

- Developed and maintained multi-user ERP Web and Mobile applications for Textile, Retail, and Wholesale businesses.
- Worked with dynamic account, item, customer, team, and user-based configurations.
- Implemented multi-client functionality for customized company and user workflows.
- Developed reusable React components and managed application state using Redux.
- Worked on Ledger Reports, Sales Outstanding Reports, Cart Management, Payment Reports, Receipt Entry, Bank Reconciliation, Journal Voucher, User Login, and Permission Management.
- Implemented secure login and role-based access control.
- Developed responsive interfaces for web and mobile applications.
- Integrated APIs and handled dynamic data workflows.
- Used Git for version control and team collaboration.
- Participated in debugging, performance optimization, feature development, and application maintenance.

SNEPITECH IT SOLUTION

Jun 2024 – Nov 2024

- **React.js Developer**

- Contributed to the development of Snepishop, a dynamic e-commerce platform.
- Improved website responsiveness, loading performance, page response speed, and overall user experience.
- Contributed to the SnepiTech company website, focusing on responsive design and performance optimization.
- Participated in development, debugging, feature implementation, and maintenance activities.
- Collaborated with the development team using Git.
